

# MOUNT OLIVE COLLEGE

## *Mount Olive College Graduation Survey*

### ***Summary:***

While the Graduation Survey might illustrate the connection between graduates' current career and degree choices, there is need to further investigate any connection between a student's Mount Olive College major and the choice made for a graduate school program. The limitation of this survey surrounds the timing of the survey deployment at graduation. Because transcripts and/or future educational plans might not be finalized, it limits responses. A survey conducted 6 months after the student has graduated from Mount Olive College by the Alumni Office might provide a more comprehensive answer to this topic.
